Subject: Information on REACH Compliance / Declaration of RoHS Product Conformity

Dear Ladies and Gentlemen,

The SSI Schäfer Fritz Schäfer GmbH is a manufacturer of storage and logistics systems, workshop and operating equipment, office furnishings, and products for waste disposal and recycling that, according to REACH Regulation (EC) No. 1907/2006, does not emit chemical substances or preparations under normal and reasonably foreseeable conditions.

Our production and any assembly work associated with our production are considered the tasks of a downstream user. No registration obligations arise according to REACH from the delivery of our products or from our activities as a downstream user of the products from our suppliers.

As part of the supply chain, it is our duty to ensure that our customers receive the information required according to Article 33 of the REACH regulation. In this context, we are in close contact with our suppliers regarding their procedures.

According to the information provided to us by our suppliers, we can state the following:

- Our suppliers or sub-suppliers have confirmed that they comply with the provisions of the REACH regulation, which means substances requiring registration are registered by the corresponding upstream supplier.
- We do not have any information from our suppliers on products containing more than 0.1% of substances of very high concern (SVHC substances **like PFOS**). **This also applies to the purchasing of substances or mixtures with a PFOS content > 0.001%.**

As a result, the products we deliver to your company do not contain any SVHC substances in a concentration greater than 0.1% to our knowledge according to the current list published on the website of the European Chemicals Agency ECHA.

After appropriate examination, we can also inform you that the products offered in our current main catalog do not contain any electronic components. For this reason, the regulations pursuant to RoHS do not apply to these products. If you have any further questions regarding the REACH compliance of our products, please contact us in writing at **ZBV-Sicherheit@ssi-schaefer.de** or by telephone on **+49 2735 70-555**.

Please understand that we cannot fill out any special questionnaires due to the high number of requests we receive. We hope, however, that this letter contains the information you need and would like to thank you for your trust in us.

Best regards

SSI SCHÄFER PLASTICS GMBH
