SSI SCHÄFER

GMT eXtra

120 - 240 litres

Standard version

- Made of High Density Polyethylene (HDPE)
- Excellent equipment for the latest emptying devices
- Trouble-free use
- Long service life
- Integrated chipnest for transponder
- Reinforced wheel housing and wheel support
- Various versions available: from standard bin to the thoroughly ventilated version
- UV-stabilised
- Ergonomically positioned handles
- Lid with surrounding drip edge for condensation
- Manufactured according to DIN EN 840 -1, -5 and -6
- RAL Quality Mark approved acc. to RAL-GZ 951 / 1 for highest quality
- Axle made of quenched and tempered steel
- External wheels (not integrated) for high stability
- Noise reduced <92dbA according to the EU Directive 2000 / 14 / EG
- Lid opening cushioning by means of the 4 point hinges
- Additional supporting rib

Extras

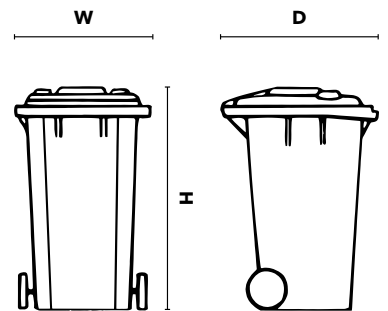

- Lid with 2 point hinges
- GMT eXtra 120 S and 240 S with reinforcing ribs on the base
- Gravity locks
- Aperture for document insertion
- Ergolid System: Ergonomic handles for easy opening of the lid from every position. The larger lid surface is particularly suitable for large detailed embossing
- Bin with one piece tubular handle
- Waste stream identification using the "ergolid-clip" allows easy and cost effective waste stream changes

Exclusively for GMT eXtra 180 litres

- Integrated foothold
- 250 mm wheels for improved handling
- Greater strength due to additional profiling on the side walls
