SSI SCHÄFER

GMT Duron 240 - sets new standards in the field

Our smart solution has been designed to meet a wide range of requirements and stands out in the waste management sector thanks to its excellent balance of price, quality and durability.

Highlights

- **optimised use of materials** through state-of-the-art multi-shot injection moulding
- **low-stress tank** thanks to its smooth-walled design
- production using up to 100% HDPE regrind and, on request, with Blue Angel certification, helping to **protect the environment and conserve resources**
- a continuous handle strip ensures **optimal handling** (a split handle strip is available as an option)
- increased diameter of the handle (28 mm) for **comfortable handling**, particularly when emptying
- available with **wheel diameters of 200 mm and 250 mm**
- internal stacking ribs for **more stable stacking**
- **space-saving stacking** thanks to an improved lid design
- **cost-effective transport** thanks to lower freight costs per item

The smooth-surface version offers a large area for **your strong brand presence** and clear branding

www.blauer-engel.de/uz30a
Production in accordance with Blue Angel certification is possible

Further features

- made from high-density polyethylene (HDPE)
- long service life
- UV-stabilised
- footrest for easier movement of the filled container
- improved force distribution during emptying thanks to the smooth-walled design
- ergonomic angled arrangement of the lid handles
- manufactured in accordance with DIN EN 840 - 1, 5 and 6
- RAL certification pending
- axle made of hardened steel
- external (non-integrated) chassis for high stability
- lid opening damping

Improved lid design allows for a higher load capacity and saves storage space

Internal stiffening ribs for greater stability

Split handle strip (optional)

Continuous handle strip

Handle with an increased diameter (28 mm), available in two versions

 Rapeseed yellow RAL 1021	 Light brown RAL 8025	 Blue (RAL-Design) 270 40 40

Regrind and recycled colours

 Black-grey RAL 7021	 Blue RAL 5002	 Dark green RAL 6020
 Dark blue RAL 5003	 Olive RAL 6011	 Dark brown RAL 8028

Technical specifications

Width mm (W)	580 +5/-5
Height mm (H)	1.100 max.
Depth mm (D)	740 max.
Capacity (litres)	240 +15/-5
Payload kg	96
Wheel - Ø mm	200 / 250

Footplate and wheel diameter 200 or 250 mm

All dimensions given are nominal dimensions in accordance with DIN EN 840; colour variations may occur.

Six reasons why choosing SSI SCHÄFER Plastics is the right decision

■ Security

As a financially independent family-run business, SSI SCHÄFER Plastics takes a long-term view, and you can rest assured that our team of experts will be there for you today, tomorrow and beyond.

■ Cost-effectiveness

SSI SCHÄFER Plastics' solutions are scalable and grow in line with your requirements. The modular design of the solutions allows you to upgrade at any time or modernise your processes step by step.

■ Quality

As an expert in the recycling industry with in-house development and manufacturing capabilities, SSI SCHÄFER Plastics provides you with a wide range of high-quality solutions from a single source. Targeted quality management in accordance with recognised standards ensures that our products are highly reliable and durable – a fact also confirmed by independent testing bodies.

■ Reliability

Through our in-house Customer Service & Support team, SSI SCHÄFER Plastics ensures the smooth operation of your systems and processes in the long term, both during and after implementation.

■ Know-how

For decades, SSI SCHÄFER Plastics has played a pioneering role in the development of innovative waste management systems, setting new standards in the waste management industry through innovation and high quality.

■ Digitalisation

SSI SCHÄFER Plastics' solutions are always state-of-the-art. Our digital experts design comprehensive, tailor-made system solutions and modular concepts that integrate seamlessly into your existing structures and generate direct added value.
